

brother yielded, and clasped to his bosom the sister who sought his love.

From that instant, new thoughts, new views, new purposes ruled the mind of Deacon Browning. The discipline of a whaler was too hard and cruel for his boy, young in years, and by no means as hardened in iniquity as he had permitted himself to imagine. A cold shiver ran along his nerves at the very thought of doing what, a few hours before, he had so resolutely intended. Kindness began whispering in the ears of Duty, and crowding them with a world of new suggestions. The heart of the stern man was softened; and there flowed into it something of a mother's yearning tenderness. Rising up, at length, Deacon Browning said, in a low voice, so new in its tones to the ears of Philip, that it made his young heart leap—

"My son, I wish to see you alone."

The Deacon went into the next room, and Philip followed him. The Deacon sat down, and Philip stood before him.

"Philip, my son," Deacon Browning took the boy's hand in one of his, and looked him full in the face. The look was returned—not a defiant look, but one of yielding wonder.

"Philip I am not going to send you to sea with Capt. Ellis. I intended doing so; but on reflection, I think the life will be too hard for you."

Very firmly, yet kindly, the Deacon tried to speak, but the sister of Duty was playing with his heart-strings, and their tone of pity was echoed from his voice, that faltered when he strove to give it firmness.

The eyes of Philip remained fixed upon the countenance of his father.

"My son," Deacon Browning thought he had gained sufficient self-control to utter calmly certain mild forms of admonition; but he was in error; his voice was still less under his control, and so fully betrayed the new-born pity and tenderness in his heart, that Philip, melting into penitence, exclaimed, as tears gushed from his eyes—

"Oh, father! I've been very wicked, and I'm very sorry!"

Involuntarily, at this unexpected confession, the arms of Deacon Browning were stretched out towards his repentant boy, and Philip rushed, sobbing, into them.

The boy was saved. From that hour, his father had him under the most perfect subordination. But the twin sister of Duty ever walked by his side.—*Olive Branch.*

### The Hotel Season.

By reference to our advertising columns, our readers and exchanges will perceive that our "Season" is about to commence. The Hotel proprietors, knowing the advantages of bringing their respective establishments prominently before the public, announce themselves this morning as candidates for public favor. No city of the size of this in the Union contains so many good hotels, nor so well kept ones. The "Ocean House" is the largest of them, and with its spacious hall, almost endless piazzas, and grand drawing-room, is perfectly adapted to the wants of those who seek the fresh sea breeze, as a refuge from the sweltering cities. It is kept by John G. Weaver, Esq., its principal proprietor. The "Atlantic House" is owned by his brother Joseph B. Weaver, Esq., and its situation on Touro Park is the most delightful of any. The square in front of it containing the Old Stone Mill is a great advantage to it—forming a matchless promenade for the guests of the house. The Bellevue, which was the pioneer house, has been greatly enlarged and improved during the past year, and remains the favorite resort of its host of old admirers. It has a home-like look, with its grand old shade trees, and pleasant piazzas. It is kept by Francis B. Peckham, who purchased it a year ago, and has made great improvements both in the house itself, and the catering for the inner man. The "Fillmore House" was built last year for William W. Hazard, and much enlarged by him during the past winter. It is the newest, and in many respects the most convenient of our hotels, and Mr. Hazard has fully sustained in it, the reputation he gained as host of the Bellevue. Governor Dyer, and his suite, have engaged rooms there, and it will consequently be the "head quarters" during the session of the Legislature. The Aquidneck House, is open all the year, but spreads new plumage for its summer friends. It is kept by Philip Rider, who, be it summer or winter, is always ready to greet his numerous guests. It is a nice, quiet house, well kept, and is very creditable to the city; its locality is delightful and its proximity to the city, the shops, &c., makes it a favorite resort for those (ladies particularly) who yearn after the shop-kept vanities of the world. The Island House, kept by Cornelius Wilbour, is a quiet, home-like house, resorted to by families who come to the country, for the love of it. It is in a quiet nook, away from the dust, noise, and turmoil of the fashionable world. Here, ye seekers after health is your resting place. The "United States Hotel," is kept by A. B. Copeland, who has recently purchased it, and put it in good order. It is open during the whole year and presents great attractions to the business and travelling public. "Horton's Pelham Street House," is a hotel of the same description and many resort to it, as an old established favorite. Mr. Horton is a good host and his house is comfortable and pleasantly located.

Here then, Mr. "Herald," are our Hotels,—and not one of them is so neglectful of its duties to society—so regardless of its reputation, so reckless of its own interests, as to give you shelter beneath its roof—unless indeed you would bind yourself over to behave with respectability, and to be moderately about them when you leave.

## LOCAL NEWS.

**The Coddington Five Cent Savings Bank** in this place has thus far met with success, and bids fair to become a very useful institution. The idea of depositing small sums like five cents, at first thought, seems to capitalists almost ridiculous. But to the little urethras for whose benefit this humane institution was established, it is no trivial affair. Our office window is directly opposite the bank of deposit, and it is really pleasant to see the smiling little children of different grades, ages and sexes as they pass in to find a place of safety for the small earnings which might otherwise be lost at the candy shop.

Upon inquiry, we learn that this institution has been in operation only since about the first of Sept. last. That there are already about three hundred depositors, and that the sum of nearly six thousand dollars, is now on deposit, and safely invested in stocks in Newport, Boston and New York; which stocks are yielding to the bank an average of at least 7 1/2 per cent per annum.

A dividend of 3 per cent for the past six months was paid to depositors about a month since. This argues well for the prudence and skill with which the funds have been invested, and the economy exercised in the expense of the institution. Oliver Read Esq. is the President, Geo. W. Swinburne the Treasurer. The investing committee are Messrs. Oliver Read, Job A. Peckham and George W. Taylor. The days of deposit are Wednesday and Saturday, during Bank hours, at the Traders Bank.

We feel a deep interest in the success of this new enterprise and shall take occasion at some future time when further facts develop themselves to make another allusion to its progress.

We cannot touch for the authenticity of the following rumor which is being circulated, but we understand that John Dean and his romantic bride arrived in this city last evening, in quest of accommodations for the 'season,' quite a sensation was created on board the boat when it was known that they were on board, John however seemed to take it quite coolly, and hardly noticed the stares of curiosity which were bestowed upon him. Lucky dog that Herman, who has whipped himself into the good graces of the lovely Mary Ann—but so the world goes, and many a better man has been hung for a less offence. We do not know whether he has succeeded in obtaining the desired apartments, but should think that any one would consider his establishment highly honored by the acquisition of such distinguished guests.

Since writing the above we understand that they have succeeded in finding comfortable apartments on Bannister's Wharf, and the denizens of that locality are highly pleased with the prospect of having such distinguished neighbors.

## GENERAL NEWS.

### The Murder of Dr. Burdell.

ECKEL NOT TO BE TRIED TILL OCTOBER. COURT OF OYER AND TERMNER—Before Judge DAVIES. MONDAY, May 18

The Court, on opening this morning asked the District Attorney, if he had any business to bring before it. He replied that there was an indictment still pending—that against John J. Eckel—for the murder of Dr. Burdell, but circumstances induced him to ask a postponement of the case till the October term, when he would either try or not, pros. it.

Mr. John Graham, Eckel's counsel, moved the Court that there be a discontinuance or an immediate trial. In support of this motion he made an earnest appeal to the Court, wherein he remarked upon the injustice of allowing such a stigma to rest on his client for so many months. If there was new evidence developing itself against him, he should be discharged now and reintroduced in the Fall.

The Court observed that the District Attorney was presumed to understand his own business best, and that at all events it was not in its power to interfere.

Mr. Graham then asked the District Attorney's reasons for the course he was pursuing, to which Mr. Hall replied that he made no public explanations.

The Court thereupon adjourned sine die. —*N. Y. Tribune.*

MRS. CUNNINGHAM AND ECKEL.—In the Herald, a day or two since, appeared a silly story, that Mrs. Cunningham and Eckel had been riding out on Long Island together. The story is without the least truth, and originated, we are told, as follows: A few days since, a young gentleman of this city, having purchased a pair of fast horses, proceeded to Long Island to try them. On the way he overtook a carriage in which were a lady and gentleman, and being anxious to test the mettle of his new purchase, endeavored to pass ahead. His horses, however, would not go, and the other vehicle gained upon his considerably. In the evening some of his friends rallied him upon the circumstance, when he replied with a laugh—"Oh nonsense, I could have passed the carriage easily enough, but I saw Eckel and Mrs. Cunningham, and I purposely reined to have a good stare at them." Nothing more was thought of the matter till it appeared in the Herald.

We understand that Mrs. Cunningham has not left the house since she returned to it after the trial, and Mr. Eckel has never entered it.—*N. Y. Express.*

Holloway's Pills have wrought wonders in the unhealthy regions of the West and Southwest. In September last, Hiram Seabury, aged 28, residing near Terre Haute, Ia., was cured in two weeks of bilious remittent fever (to which he had been subject every Fall for nine years), by the searching operation of this remedy. The disease had prostrated him season after season, at the busiest time of the year, causing him great pecuniary loss, as well as bodily suffering. The attack generally confined him to the house from the commencement of the Fall until the middle of December. Every remedy that the faculty could suggest was tried without avail; but that which had defied their prescriptions for nine successive years, was radically cured in a fortnight by Holloway's Pills. Mr. Seabury, writing under date January 3d, says, "I am now in the enjoyment of perfect health."

A boy of little children were telling their father what they got at school.

The oldest got grammar, geography, arithmetic, &c. The next got reading, spelling and definitions.

"And what do you get my little soldier?" said the father to a rosy cheeked little fellow who was at that moment slyly driving a ten penny nail into a door panel.

"No! oh, I gets readin' spellin' and spankings!"

We hoped yesterday about noon that a change for the better was about to take place in the weather. But Alas! we were disappointed, and fear we are doomed to a still longer sojourn of these cold blustering rains.

## LATEST NEWS.

## BY TELEGRAPH.

### THE NEW YORK POLICE TRIBUNAL.

District Attorney Hall of New York has issued a card this evening, stating that he has reliable information, to the effect that in consequence of present disorganized state of the Police, attempts of an organized nature are about to be made to commit burglaries in the city, and he calls upon the citizens to strengthen the private watch, and take other precautions. From present appearances there seems to be a likelihood of collisions between the two police organizations, both in this city and Brooklyn. The Mayor of Brooklyn repudiates the action of the Chief of Police there, who has acknowledged the authority of the new Commissioners. The Mayor threatens to assume the command of the Police himself, and use force, if necessary.—May 19.

### THE GREYTOWN INDEMNITY.

Lord Napier has not yet received any reply from the Secretary of State to his proposal to re-open negotiations respecting the Central American question. He has again called the attention of our government to the claims of certain British subjects for indemnity for losses at Greytown. Mr. Cass will, in reply, furnish a copy of Secretary Marcy's letter to Mr. Sartiges, in which it is not only clearly shown that there is no claim, either legal or equitable, but that the arguments are supported by numerous precedents from English history.

### THE APPROACHING CRISIS IN UTAH.

A variety of important intelligence reaches us from Utah, indicating that affairs in Brigham Young's stronghold are rapidly reaching a crisis. First, there is a rumor, said to be founded on official despatches, to the effect that Brigham Young has run away to escape the fury of his own people, and is negotiating with the Indians for a safe transit through their country. We receive the report with considerable doubt; Young has plenty of "pluck" as well as an immense power over his people; and it is not impossible that he is forming a treaty of alliance with the Indians for the purpose of resisting the military expedition of the United States.

Still if a rebellion has not actually occurred, considerable disaffection really exists, caused by Young's mal-appropriation of the funds of the Church and by his increasing brutality, recklessness and despotic abuse of power. There are premonitory symptoms of a revolution which will quicken into life the moment the Federal Government takes a decided stand. There is every prospect of a speedy termination of the career of Brigham Young and his myrmidons. Crimes of the most foul and horrible description have increased to such an extent, that the life of no settler in the territory is safe; while a secret society called Danites have organized a general system of murder, arson, robbery and rape, on the most extensive scale. This state of things will not be suffered to last; not even the Mormons will endure such heinous and sanguinary despotism.

The proceedings of Young's emissaries against the Federal authority have become still more violent and rebellious.

Attempts have been made to fire the dwellings of the Attorney and the U. S. Judge. Both have been cut off from the Church, and denounced as apostates, for daring to do their duty and trying to enforce the laws of the country. The U. S. officials, Gen. Burr, the Surveyor-General, and Dr. Hart, the Indian Agent, are now in a very dangerous position. Open threats of burning or tearing down their offices, and killing or maltreating them are daily made, and in one of the southern settlements, at a Sunday meeting, it was voted to raise a party to come and cut their throats.

Later dates inform us that some of the Danites have invaded the Courts, intimidated the Judge and broken up the proceedings by force. There is no longer law, or the forms of law, in Utah, and the Federal Government has no more power there than in the Kingdom of Siam. We cannot believe that the Administration will suffer this state of things to continue on American soil which owes as much allegiance to the U. S. as any member of the Confederacy, and as entirely pertains to the dominion of the Union. Now is the time to take advantage of the discussion among the Mormons, and by one blow put an end to a theocratic oligarchy which should make us blush for our country, and which is without a parallel in the history of civilization.—*N. Y. Mirror.*

### Arrivals at the Hotels.

We are willing to publish the arrivals at all the different Hotels in the city, and shall not charge, as is the custom in other places for so doing. The only bonus we ask, for the present at least, is that the proprietors of the different public houses should send us in their arrivals as early in the evening as convenient, several of the Hotels have offered to attend to this matter, for which politeness they have our most unqualified thanks.

**PERRY DAVIS' VERMONT PAIN KILLER.** Still in demand, and a thorough trial by innumerable witnesses, it has proved itself to be the Medicine of the Age.

Although there have been many medicinal preparations before the public since the first introduction of Perry Davis' Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world, as the best Family Medicine ever introduced.

The genuine Perry Davis' Pain Killer is now put up in panel bottles, with the words PERRY DAVIS' PAIN KILLER blown in the glass; and with two steel engraved labels on each bottle—one an excellent likeness of Perry Davis, the original inventor of the medicine, the other a steel engraved note of hand—none others can be relied upon as genuine. Price of bottles, 12 1/2 cents; 25, 50, &c., as directed.

PERRY DAVIS & SON, Proprietors.

No 74 High-street, Providence, R. I.

One word in regard to Perry Davis' Pain Killer. I have used it in my family for some two years, and take great pleasure in recommending it as a valuable medicine, that should be kept in every family. I have witnessed wonderful speedy cures by its use—recently, within the last week, I have known a very severe case of rheumatism soon relieved and promising a speedy cure by this in my estimation, invaluable remedy.

**ANOTHER TRIUMPH OF THE DEFENSE SALAMANDER SAFES!!!**

New York, Nov. 4th, 1856.

MR. ROBT. M. PATRICK, 192 Pearl-st.

DEAR SIR.—The Defense Safe, No. 5,778, purchased from you about eighteen months since, was in my house at Newport, R. I., which, with the furniture, was entirely destroyed by fire on the night of 5th the June last. The Safe, after having exposed to an intense heat for many hours, was recovered on the 10th of June. Not having the necessary tools at hand to open it, the same has stood just as when recovered, until shipped to your address, Nov. 1st. When opened at your store this morning, I was agreeably surprised, as were also others present, to find the contents, consisting of valuable silver plate, &c., in as perfect order as when placed therein. It is with pleasure I add my testimony to the merits of the Safes of your manufacture. Yours, Respectfully,

DAVID L. PATRICK.

**Newport Musical Institute.**  
**GRAND CONCERT.**  
 The Government of this Society take pleasure in announcing to the Public the third concert of the Institute at **AQUINNECK HALL.**  
 Friday evening, May 20th, under the direction of Mr. Eben Tourjee. The programme will contain Choros from Mozart's celebrated 12th Mass, together with a miscellaneous selection of Songs, Duets, Trios, Quartettes, and Choruses of a secular character. The concert will be given at the usual hour, and the previous concert has induced them to make extra efforts in preparing the present programme which they flatter themselves will be appreciated.  
 A full programme and further notice will be given in a few days.  
 Tickets 25 cents, may be obtained at the usual places.

**SCHOLEY'S Patent Refrigerator.**—This Refrigerator is on an entirely new plan. It preserves by turning a cold, dry current of air. It will keep beef without salt or sugar seven days if not put in a cold room. It will keep butter in its original condition for weeks, as no mould or moisture can remain in the preserving chamber while the ice chamber is supplied. It will keep butter for any length of time fresh and hard. It will keep pure milk sweet for six months. Mould must not be put in the refrigerator. It will not generate in the preserving chamber, neither can the flavor of one article be imparted to another. It melts less ice than the ordinary ice-box; five pounds of ice will keep it as cold as twenty pounds. The temperature inside when in operation will average from 35 to 40, while the outside of it may range even up to 90 or 95. I have for sale at my warehouse, Nos. 4 & 5 Washington Square, four different sizes for family use, and all who are in want of a genuine article are invited to call and examine them for themselves. Also, the testimony of such men as J. M. Lock, the Chemist; Prof. E. N. Horsford, Harvard College; John M. T. Wilder, Boston; Daniel P. Curtis, Boston.

**HAIR RESTORATIVE**  
 The Greatest Discovery of the Age.  
 Perfect HAIR RESTORATIVE. It is in a short time restore the Hair, which has become gray prematurely, to its original color—bring it out where it is gone, and arrest its falling off—clear the head of dandruff and itching humors—remove all cutaneous eruptions, and render the scalp perfectly healthy, by restoring the secretory organs to their original vigor and strength, and thus supply nutriment and coloring matter to the roots. It does not dye the hair, but, in short, a perfect Hair Restorative and Tonic.  
 To the young, who so much admire the beautiful locks and ringlet, he feels that he will be pardoned if he offers the advice suggested by long study and extensive experience. It is a perfect remedy for coloring and stimulating the hair, and keep always upon the toilet a bottle of the Restorative for occasional use, and we can safely predict, that henceforth silver locks will be upon bald heads. Let the dark eye be ever so piercing, and the teeth be those of pearl—still, if the natural fluids be withheld from the hair, and in consequence become first dead and harsh, then gray, or falls off nature will be robbed of more than half its charm, as it is a sure proof, remedy for those who are gray as well as those who are bald, all must see the propriety of making only such application to the hair and scalp as is calculated to preserve both in a healthy state.  
 From the editor of the Real Estate Advertiser No. 2 School Street.  
 Boston, March 20, 1856.  
 Prof. Wood—Dear Sir—Having become prematurely gray, I was induced to use your Restorative. I have used less than two bottles, but the gray hairs have disappeared; and although my hair has not fully attained its original color, yet the change is gradually going on, and I have great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which, before was harsh and dry, and it has ceased to come out as formerly.  
 Respectfully yours,  
 D. C. M. RUPP.  
 Milford, Worcester Co., Mass., Nov. 13th, 1855.  
 Prof. O. J. Wood—Dear Sir—I take pleasure in bearing testimony to the magical effects of your wonderful Hair Restorative. As far back as 1856 my hair commenced falling off until the top of my scalp became bald and smooth as glass, and it has continued to fall off for a great many years, notwithstanding I have used many celebrated preparations for its restoration. Seeing your article a trial, and to my utter astonishment I found after a few applications that my hair became firmly set and assured by very glossy and beautiful appearance; and at the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches in length, and growing very fast.  
 Yours, truly,  
 HENRY GOODRICH.  
 Carlyle, Ill., June 27, 1856.  
 I have used Prof. O. J. Wood's Hair Restorative, and as I thought permanently gray, but by the use of his Restorative, it has resumed its original color, and I have no doubt permanently so.

**A. A. HAYES, M. D.**  
 "I have subjected to chemical analysis, the Cod Liver Oil prepared by HAZARD & CASWELL, of Newport, R. I. It proves to contain unaltered the iodine compounds essential to efficacy of action, and in comparison with the best specimens I have seen of foreign or domestic origin, it takes the highest place. The importance of having a reliable source, from which this valuable remedy is a state of purity can be obtained, leads me to recommend with confidence, this excellent article." As a remedy for consumption, bronchitis, female debility, asthma, gout, rheumatism, sciatica, emphysema, neuralgia, infantile wasting, emaciation, &c.—it has no equal. It ought to be used freely as an element of nutrition in any case where there is decay, however slight, of the constitution. It will restore feeble children to robust health, and is the most valuable nutritive agent known. We guarantee every bottle containing our signature to be perfectly pure and reliable. Address orders for the trade to the manufacturers.

It is a perfect remedy for coloring and stimulating the hair, and keep always upon the toilet a bottle of the Restorative for occasional use, and we can safely predict, that henceforth silver locks will be upon bald heads. Let the dark eye be ever so piercing, and the teeth be those of pearl—still, if the natural fluids be withheld from the hair, and in consequence become first dead and harsh, then gray, or falls off nature will be robbed of more than half its charm, as it is a sure proof, remedy for those who are gray as well as those who are bald, all must see the propriety of making only such application to the hair and scalp as is calculated to preserve both in a healthy state.  
 From the editor of the Real Estate Advertiser No. 2 School Street.  
 Boston, March 20, 1856.  
 Prof. Wood—Dear Sir—Having become prematurely gray, I was induced to use your Restorative. I have used less than two bottles, but the gray hairs have disappeared; and although my hair has not fully attained its original color, yet the change is gradually going on, and I have great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which, before was harsh and dry, and it has ceased to come out as formerly.  
 Respectfully yours,  
 D. C. M. RUPP.

 Prof. O. J. Wood—Dear Sir—I take pleasure in bearing testimony to the magical effects of your wonderful Hair Restorative. As far back as 1856 my hair commenced falling off until the top of my scalp became bald and smooth as glass, and it has continued to fall off for a great many years, notwithstanding I have used many celebrated preparations for its restoration. Seeing your article a trial, and to my utter astonishment I found after a few applications that my hair became firmly set and assured by very glossy and beautiful appearance; and at the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches in length, and growing very fast.  
 Yours, truly,  
 HENRY GOODRICH.  
 Carlyle, Ill., June 27, 1856.  
 I have used Prof. O. J. Wood's Hair Restorative, and as I thought permanently gray, but by the use of his Restorative, it has resumed its original color, and I have no doubt permanently so.
